## Foreword

This translation has been made based on the original Japanese Industrial Standard established by the Minister of Economy, Trade and Industry, through deliberations at the Japanese Industrial Standards Committee in accordance with the Industrial Standardization Law.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.

**JIS A 1902** consists of the following 4 parts, under the general title “*Determination of the emission of volatile organic compounds and aldehydes for building products—Sampling, preparation of test specimens and testing condition*”:

*Part 1 : Boards, wallpaper and floor materials*

*Part 2 : Adhesives*

*Part 3 : Paints and coating materials*

*Part 4 : Heat-Insulating material boards*

Date of Establishment: 2006-12-20

Date of Public Notice in Official Gazette: 2006-12-20
