Designation system for screw threads

ICS 21.040.01

Descriptors : letters (symbols), screws (bolts), threads, designations

Reference number : JIS B 0123 : 1999 (E)

Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of International Trade and Industry through deliberations at Japanese Industrial Standards Committee in accordance with the Industrial Standardization Law. Consequently **JIS B 0123 : 1982** is replaced with **JIS B 0123 : 1999**.

This revision has been carried out by taking such consideration into account that this designation system will conform with the designation system of screw thread used in the individual International Standard as far as possible since there is no International Standard directly corresponding to this Standard and that no contradiction will take place among relevant Japanese Industrial Standards when this system is employed.
