Foreword

This translation has been made based on the original Japanese Industrial Standard established by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee according to the proposal of establishing a Japanese Industrial Standard from the Japan Research Institute for Screw Threads and Fasteners (JFRI)/ the Japanese Standards Association (JSA), with a draft of Industrial Standard based on the provision of Article 12 Clause 1 of the Industrial Standardization Law.

By this Standard, **JIS B 0205:1997** and **JIS B 0207:1982** were withdrawn and replaced with **JIS B 0205 Part 1 to Part 4**.

This Standard has been made based on **ISO 262:1998** *ISO general purpose metric screw threads — Selected sizes for screws, bolts and nuts* for the purposes of making easy to compare this Standard with International Standard; to prepare Japanese Industrial Standard conforming with International Standard; and to propose a draft of International Standard which is based on Japanese Industrial Standard.
