Introduction.....	1
1 Scope.....	1
2 Normative references	1
3 Colour code for fixed inductors	2
3.1 General rules.....	2
3.2 Examples of colour code for fixed inductors.....	3
4 Digit and letter code for inductance values	3
4.1 General rules.....	3
4.2 Examples of digit and letter code for inductance values	4
5 Letter code for tolerances of inductance values	4
5.1 Symmetrical tolerances	4
5.2 Other tolerances	5
6 Date code system of the year and month (year and week) of the manufac- ture for fixed inductors	5
6.1 One-character code (year/month)	5
6.2 Two-character code (year/month)	6
6.3 Four-character code (year/week)	6

Foreword

This translation has been made based on the original Japanese Industrial Standard established by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee according to the proposal for establishment of Japanese Industrial Standard submitted by Japan Electronics and Information Technology Industries Association (JEITA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law.

This **JIS** document is protected by the Copyright Law.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.
